

GraphenePi
R&D Engineering

Who We Are ?

Our company which is Istanbul-based is established in 2018.

We are a team of academicians and engineers who are experts in their field.

We operate in many areas such as antenna and microwave design, defense industry, communication systems, RF systems, IoT, 5G, etc.

GraphenePi aims to be one of the pioneers in technology in the growth of the industry and to provide customer needs by producing solutions with advanced technology.

Our Fields of Activity

Antenna and Microwave Components Design

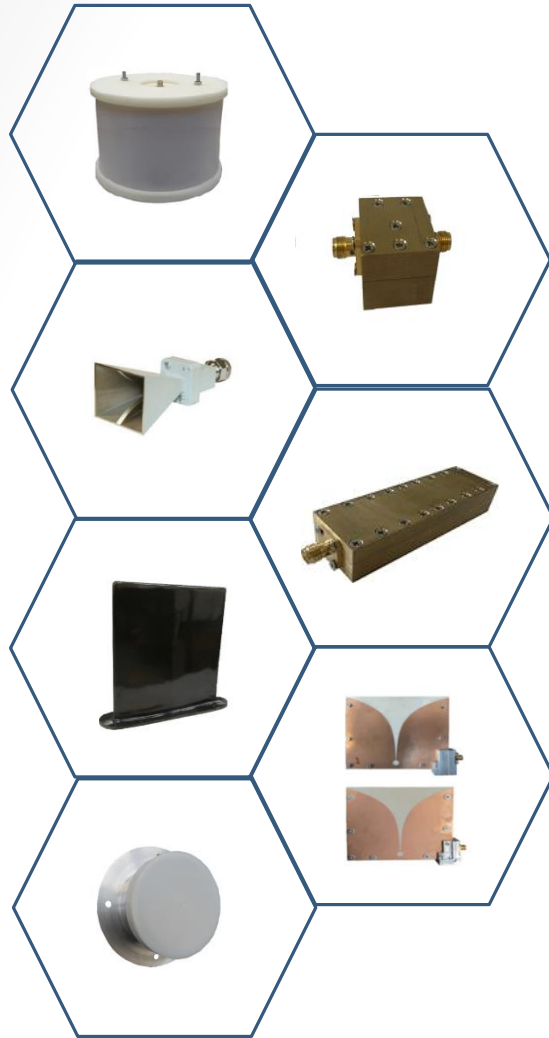

Communication Systems

Satellites Systems

Space/Aviation

Defence

Our Solutions

We have many type of antennas and microwave components in our stocks.

Discone
Antenna

Vivaldi
Antenna

Isoflux
Pattern
Antenna

Helix
Antenna

Horn
Antenna

Spiral
Antenna

Bicone
Antenna

Reflector
Antenna

Monopole
Antenna

Dipole
Antenna

LTE
Antenna

Band
Pass Filter

High Pass
Filter

Waveguide

Notch
Filter

RF
Coupler

Power
Divider

Diplexer
Duplexer
